Reunion Weekend 2010 saw a record number of alumni and guests descend upon the Health Science Center campus for two and one half days of fun-filled activities. The classes of 1980 and 1990—led by class agents, Drs. Pam Camosy '80, Valerie Pronio-Stelluto '90, and Scott Sigler '90—shared the coveted “Best Attending Physicians” Award, which recognizes the class with the most Reunion Weekend registrants. Each class had 29 alumni in attendance.

Other highlights included presentations by Dr. Francisco González-Scarano (Dean), Dr. Renu Weiss '90, and two second-year medical students, John Byrne '14 and Sara Koenig '14. In addition to rekindling friendships with former classmates and re-engaging in the life of their alma mater, alumni got to mix and mingle with a number of Founding Faculty members, including Drs. Carlos Pestana, Marvin Forland, Eliot Weser, and Jim Young.
