

The University of Texas Health Science Center at San Antonio Joe R. and Teresa Lozano Long School of Medicine

Assistant Dean for Research

The Long School of Medicine at the University of Texas Health Science Center at San Antonio (dba UT Health San Antonio) seeks an accomplished scholar with a strong commitment to promoting research including a record of scientific achievement, extramural grant support, and scholarly accomplishments to serve as the Assistant Dean for Research. Intellectual breadth, strong interpersonal skills, demonstrated expertise in research-driven programs and policies, and experience leading complex teams and/or organizations are required. Reporting to the Associate Dean for Research in the School of Medicine, the Assistant Dean will support the development of innovative programs to enhance research productivity in the SOM. The UT Health Science Center is an Equal Employment Opportunity/Affirmative Action employer and is committed to excellence through diversity among its faculty, staff and students including protected veterans and persons with disabilities.

The ideal candidate will have a successful history of securing extramural research funding and possess familiarity with research core laboratory equipment and services. Sensitivity to the perspectives and values of faculty and a proven desire to inspire, motivate, and provide leadership to students, faculty, and partners across and external to UT Health SA.

Interested individuals should submit a letter of interest along with a current CV electronically via the UT Health careers portal at <http://uthscsa.edu/hr/employment.asp> to apply for the Assistant Dean for Research position.

All faculty appointments are designated as security sensitive positions.
