VI. **DOCTOR OF MEDICINE (M.D.) POLICIES AND REGULATIONS**

**M. Required Attire**

During the pre-clinical curriculum, students spend most of their time in lectures, small group sessions, laboratories, or other activities that do not involve patient contact. At such times, students are expected to dress comfortably, but without detracting from attentiveness and learning. When patients are present, either in a clinical setting or in the classroom, students are expected to dress professionally and to wear the white jacket with the school logo and the required student badge. Module directors should be consulted about proper attire in specific circumstances.

In the clinical setting, students are expected to dress as health care professionals, wearing both the white jacket with the school logo and the required student badge. On clinical rotations footwear must be professional; open toe footwear is never appropriate because it does not offer adequate protection from biohazards. Clerkship and course directors should be consulted if there is a question about appropriate attire.

All students are required to wear the student badge at all times in a visible manner in all pre-clinical and clinical settings.
